She Prefers Print Magazine

I love Creative Knitting magazine! I love the anticipation of going to the bookstore to get my new copy. I love sitting in the car and flipping through it immediately, just like a child with a new toy. I love sitting down and flipping through the pages later that night. As much as the idea of digital is good, for me it's just not the same.

I love my computer too, but I love my print magazine more. Thanks for the best magazine EVER!

Young Knitter Succeeds!

My name is Sydney. I am 12 years old and have been knitting since I was 8. In your July 2008 issue, I tell us how much the sweater on page 14, Cabled-Edge Top. It was my first creation, but I thought I just had to make it! I started in August, and finished in early November. It didn't fit me quite right in the back, so I added a mesh by knitting two long ribs, which looked good! I wear it all the time and am charmed with the results. Keep up the great patterns!

Designer Melissa Leppanen was devoted you chose her pattern to knit! Kudos on your beautiful sweater! —Editor

The first trial consisted of three comparisons: (a) change in low-angle (30°) moment on one side of the knee joint versus the center of the pelvis (Table 2); (b) legs versus trunk moment; and (c) trunk versus the whole body moment. The results of the second trial are listed in Table 3. The combined trunk and leg moment was about 11 times as large as the trunk
